Family First - <https://familyfirstparty.org.au/>

**Candidate for Western Metropolitan Region**

**10 Nov 22**

Thankyou for your email in regards to Family First's stance in supporting "First Nation culture" and justice. As a candidate for Western Metropolitan and as a party we are fully committed to seeing reconciliation whereby actions of the past need to be made right. I will commit to working with JAM to see what actions need to be undertaken to ensure that First Nation people that are represented by JAM are listened to and solutions focused towards reconciliation.

The first part of any solution is to listen and understand. I will commit to consult regularly with organisations such as JAM to overcome the obstacles.

As i am not a "First Nations person" I don't want to assume what the priorities are. That's where I will commit to consulting and listening with the intent of understanding. Family First are about representing and ensuring that "families" and "communities" remain strong.

Family First place a very high degree of importance on our First Nations people and culture and I would be extremely humbled to be able to work with your community to see real progress made.

yours sincerely

Darren Buller

Upper House Candidate for Family First.  
Western Metro Region.
