

1. What priority are First Nations justice issues for you?

The fall within one of our 5 Pillars - a Healthy Society - and one cannot have a truly health Australia without the recognition and the resolution of First Nations issues. Justice is a major issue given the imbalance of the First Nations people in institutions, the preponderance of deaths in custody etc etc.

2. How will you support First Nations people in Footscray / Western Metropolitan Region?

My first job is to learn from First Nations people in the Western Metro Region what is most needed - so meeting with appropriate representatives in the Region will be a top priority. I have much to learn.

3. What do you believe are the priorities for First Nations people that need to be addressed and how will you do that?

The issue of a Voice to Parliament appears to be the major priority for many, but Treaty is the top priority for others. Trying to reconcile the two is important. Health, prosperity and justice are major priorities for First Nations people, as well as major priorities of the Health Australia Party in general.

Best wishes

isaac
